I and my companion participate in all programs of this event. I agree to the following matter and vow. When death and an injured and so on accident have happened, it's never criticized for the received damage by which we're participants, drivers, companions, visitors and vehicles, etc. to a host, a staff, an employer (including relevant property of facilities) or other participants (drivers and companions, etc.). Responsibility isn't cross-examined. And damages aren't claimed. Further, even when an accident was caused by an organizer and the person concerned's mistake, etc., it's eternal. I promise the participant is qualified in case of participation of this event and, that participation is possible. I consent to an organizer's having a right of the report, the broadcast, the carrying and the recording by which we who participate in this event are the names of the participant, the driver and the companion, pictures of the participation vehicle and results, etc.. Further the right after these are used second, which is concerned, like, I make.
